

IKEA Lemon and Dill Sauce

IKEA Tomato and Herb Sauce

Looking for something simple and good? Well, here you have it!
I have tried both of these sauces with salmon and can't decide which I like best!

You be the judge.

DIRECTIONS:

Pre-heat oven to 350 degrees

Place salmon filets in baking dish that will allow for the fish to be covered by the sauce.

Gently shake the sauce pouch for 10 seconds and then pour the sauce on top of the fish.

Bake for 30-35 minutes or until fish has reached internal temperature of 145 degrees.

Enjoy!
